MEMORANDUM FOR: Deputy Director for Science and Technology  
SUBJECT : Appreciation

Carl:

With the conclusion of our first Senior Seminar, I want to express appreciation for the great contribution and whole-hearted support you gave to this pilot program in the Agency.

Judging from the evaluations and comments of the Seminar participants, the course has been successful in meeting its stated objectives. In fact, all who had a part in its development and execution view the Seminar as a highly rewarding experience.

Whatever measure of success and acceptance may have been achieved by the Senior Seminar has to be reflected back to the kind of effort and cooperation which you demonstrated.

Once again, many thanks.

25X1A

HUGH T. CUNNINGHAM  
Director of Training
